PROFESSIONAL OBJECTIVE

Seeking a challenging career in the field of Development of applications and producing innovative yet practical solutions to challenging problems, which would utilize my knowledge and adding continuous value to my career in multiple dimensions.

PROFESSIONAL EXPERIENCE

Company Name : BICS GLOBAL
Designation : Web Developer
Duration : 2Year 0Month (April 2022 to Present)
Location : Chennai.

SKILL SET

Backend Skills : PHP, MySQL, Javascript.
Frontend Skills : HTML5, CSS, React.js.
Framework : Drupal.
Version Control : Git, Jenkins, Bitbucket
Operating Systems : Windows, Linux.
IDE : VSCode, Notepad++.

ONGOING LEARNING

React : I have completed a React Master course on Udemy and received a certification. Additionally, I have developed several pages in React, including Document and My Cart pages, as part of previous projects.

PROJECT EXPERIENCE

Project #1

Name : MEDTECH
Technology : PHP, MySQL,Drupal 9.
Description :

Developed a comprehensive website for medical professionals in South East Asia using Drupal 9. The platform served as a learning portal for Johnson and Johnson professionals, facilitating course enrollment through the Absorb portal. Key features included multisite support for regional variations, as well as multimedia capabilities for image, audio, and video content.

Project #2

Name : **Academy-Plus Enhancement**

Technology : PHP , Drupal ,NextJs, APIGEE and Sales force

Description :

Enhancement project for Academy-Plus, a prominent educational platform. Implemented a variety of features including the integration of a polling system to gather user feedback and enhance engagement. Additionally, revamped the dashboard page content sorting mechanism to improve user accessibility and navigation. Utilized Next.js for front-end optimization and seamless user experience. Integrated APIGEE and Salesforce for efficient backend processes, resulting in improved scalability and overall platform efficiency.

Project #3

Name : **Distributor Gateway for Balkans**

Technology : PHP ,React, APIGEE, Drupal, Sales force and E-commerce engine

Description :

Development of a robust distributor gateway platform catering to the Balkans region. Implemented key features including import/export functionality for bulk orders via Excel, streamlining procurement processes. Additionally, integrated PDF report generation for document pages, enhancing user accessibility and documentation capabilities. Leveraged Commerce to sync product data in the backend, ensuring seamless management and organization. Implemented admin user privileges to allow exclusive publishing rights for products and brands, enhancing control and security measures. Undertook background work to optimize platform performance and enhance user experience. Collaborated with cross-functional teams to ensure smooth integration of various technologies including Next.js, APIGEE, Drupal, Salesforce, and an E-commerce engine and SAP services resulting in a comprehensive and efficient marketplace solution.

Project #4

Name : **Drupal Migration (DG_Balkans)**

Technology : Drupal 9 to 10 latest version, PHP, Mysql.

Description :

Managed the migration project to upgrade Drupal websites from version 9 to version 10 utilizing the Upgrade Status module. Utilized the module to assess module compatibility,

identify required patches, and ensure a smooth transition. Led troubleshooting efforts to address compatibility issues, applying relevant patches, and resolving conflicts to maintain website functionality.
